

Amendments to the Abstract:

Please add the following new Abstract of the Disclosure as a separate page after the claims:

ABSTRACT OF THE DISCLOSURE

The invention relates to a method for producing a glue-coated element, to the glue-coated element, to an adhesive compound and to a method for producing glue-coated derived timber panels, as well as to panels produced according to the method. The method for producing a glue-coated element that can be glued with other similarly glue-coated elements, comprises the steps of applying a one-component adhesive to at least one surface section of the element and drying the applied one-component adhesive. According to a preferred embodiment of the invention, draw-out resistance elements are provided on the glue-covered element.
